Double Patenting

The Examiner rejected claims 1-12 of the present application under the judicially created doctrine of obviousness type double patenting over claims 1 through 12 of U.S. Patent 6,703,355 B2. Applicants have submitted herewith a Terminal Disclaimer, thus obviating this rejection.

Applicants believe that the claims are patentable and that this application is in condition for allowance, and such favorable action is respectfully requested. If any questions or issues remain, the resolution of which the Examiner feels would be advanced by a conference, she is invited to contact Applicants' attorney at the telephone number listed below.

Respectfully submitted,
